SECTION A

Question 1: Comprehension

Read the article below and answer all the questions that follow.

- **Use your own words** unless you are asked to quote.
- You may give one-word answers where appropriate.

Got the Man Flu Blues

1. Man Flu is the psychological condition where men claim to suffer more from colds than women. It's the one where our menfolk are 'struck down' and must lie on the sofa and have their brows mopped, while we ladies (though often suffering from a slight sniffle ourselves) run in directions with chicken soup and Vicks.

5

2. There's even a website devoted to the illness - www.manflu.org.uk - which runs under the banner 'We're There When She Don't Care' and offers information, advice, support and sympathy for all those affected by Man Flu. For any readers who share my reservations about how real the illness is, I'd like to pass on to you this invaluable information to understand better what men are going through the next time they are struck down. Ladies, please take note.

10

3. Man Flu is more painful than childbirth. This is an irrefutable scientific fact. Man Flu is not 'just a cold'. It is a condition so severe that the germs from a single Man Flu sneeze could wipe out thousands of people living in the rainforest. And probably loads of monkeys too.

15

20

4. Women do not contract Man Flu. At worst they suffer from what is medically recognised as a 'Mild Sniffle'. If a man caught it, he would still be able to run, throw a ball, tear the phone book in half and compete in all other kinds of manly activities.

25

5. Men do not 'moan' when they have Man Flu. They emit involuntary groans of agony that are entirely in proportion to the unbearable pain they are in. Full recovery from Man Flu will take place much quicker if their simple requests for care, sympathy and regular cups of tea are met. Is that really so much to ask? Florence Nightingale would have done it.

30

6. Men suffering from Man Flu want nothing more than to get out of bed and come to work, but they are too selfless to risk spreading this awful condition amongst their friends and colleagues. In this sense, they are the greatest heroes this country has ever known.

7. Every minute in this country one man is struck down by Man Flu, it would seem. And we womenfolk are urged to offer them a cup of tea, some kind words and our undivided attention and care. Then maybe, just maybe, we can all beat this monstrous disease together.

Question Two: Summary

- Read the passage below.
- Summarise the main ideas into a **numbered** point-form summary.
- Your summary may not exceed 90 words.
- It must have **seven** numbered points. It must be written in your own words.
- Entitle it “Seven ways you can save water at home”.

Easy ways you can save water at home

Carmen Williams, 05 December, 2016

Capetonians were recently asked by the City of Cape Town to cut down their water usage due to drought and dry conditions. There is a very real worry that our dams will be depleted to dangerous levels by the end of what promises to be a very hot summer, according to [News24](#).

The amount of water used in the city has decreased since mid-November, but officials are hoping for a drop in litres used daily - from 854 million to less than 800 million litres per day. So how exactly do we do that? There are a couple of small but effective things you can do to minimise your water consumption.

Instead of letting water just go down the drain when you're waiting for your shower to warm up, use a bucket to catch the water you're not using. Then use this water to water your house plants or your garden, or even use it to flush the toilet.

Shower, instead of bathing, as often as you can. Also, limit your showers. Do you really need to be in there for 20 minutes? I'm pretty sure you're clean after two.

If you really must bath, then let that water cool down and re-use it to water plants, or do what hand-washing you need to do.

If you're one of those people who lets the water run while you brush your teeth, stop it. Close the tap and only open it when you're actually rinsing your mouth and toothbrush. All that water just running down the drain could be used in far better ways.

If it's yellow, let it mellow...and if it's brown flush it down. We're not saying you have to do this, but we're saying you can. It's not actually as bad as you think and there aren't any health risks, [as urine is sterile](#).

Go DIY, or call a plumber, but get those leaks fixed! It could save you a lot of money. Yes, even that small leak from your bathroom tap.

Lastly, running your dishwasher or your washing machine when it is half empty is really just a waste and can add up. Also, be sure to set your washing machine to the eco setting.

Question 4: Language

Refer to the passage below which contains some deliberate errors, and answer the questions which follow.

A pop-up Fluffytorium is coming to London where you can cuddle extremely fluffy animals

1. The Fluffytorium is the brainchild of Guinness World Records who will be covering the room from floor to ceiling in colourful, soft fluffy material, before filling it with super furry animals like Maine Coon cats, and fluff-riden dogs like Chow Chows, poodles and

<p><u>Pomeranians.</u></p>	5
<p>2. “Animal botherers” can book themselves into a 30 minute session, which will include all the pet cuddling that your heart desire, as well as a giant dog house and a human-sized cat flap. You can also order milkshakes to drink. They’ll be providing both dairy and dairy-free milkshakes, so that’s nice. And all for free!</p>	10
<p>3. The fur-filled experience has been created to celebrate the release of the brand new book from Guinness World Records – <i>Amazing Animals</i>. It’s a book totally dedicated to celebrating the fastest, tallest, strongest, strangest and most talented animals in the world. Visitors will also have the chance to get their hands on the brand new book for free.</p>	15
<p>4. If you’re a parent and you’re a bit worried about your kids being mauled by a room full of strange animals, then take a deep breath and relax. Every single pet in the expereince has been selected for its wonderful character.</p>	
<p>5. Oh, and if you’re currently <u>furrowing</u> your brow worrying about the animal’s welfare – the critters <u>will</u> be given breaks every 30 minutes, and there are strict rules on not picking up or badgering the animals.</p>
